

The background is a vibrant, stylized illustration of a tropical night scene. It features palm trees, glowing orange and yellow spheres, and a colorful, multi-colored fruit character wearing sunglasses and headphones. The title 'JAMMIN' JARS 2' is prominently displayed in the center, with 'JAMMIN' in a pink and purple gradient and 'JARS 2' in a rainbow gradient. A small, smiling fruit character wearing headphones is integrated into the '2' of the title.

## Jammin' Jars 2 Explainer

**Everyone's favourite game is back, and it's groovier than ever!**  
**Head on over to the fruity dancefloor once again and rave to the rhythm with the coolest DJ around.**

**Jammin' Jars 2 is an 8x8 slot game with an RTP of 96.40%.**

**In the Base Game, a minimum of 5 fruits of the same kind must be matched to receive any wins.**

## BASE GAME – COLLECTABLE GOLD VINYL

Look out for the Gold Vinyls that may land on the reels. These will be collected, as they fly up to fill the meter next to the DJ, and leave a paying symbol behind.

Get to the MAX level and be in the chance to trigger the brand new and exciting Giga Jar feature! A total of 5 levels are possible within the Base Game.

## BASE GAME & FREE SPINS – INSTANT PRIZES

Instant Prizes are available in both the Base Game and during Free Spins and can go all the way to up 1000x!

When these land, they'll appear in a blue tile. Get 5 or more adjacent instant prizes, and these will turn to purple as they form a paying cluster.

## FRUIT BLAST

The Fruit Blast feature can happen at any moment! This is triggered randomly after any cascade or collapse during the Base Game to really build anticipation.

When this takes place, a groovy looking equaliser will cover the reels, and the Giga Jar DJ will fire out 1 to 3 shots of giant fruits that will burst and form a cluster of the same kind, followed by wins being paid out.

## FREE SPINS

Dance your way into the Free Spins when 3 or more Wild Jar symbols show up on the reels. When this occurs, 6 Free Spins will be awarded.

Here, the Wild Jar Symbols will stay on the reels and wins are paid as symbols land next to the Wild Jars Symbol. These will go on to increase in multipliers that are also unlimited throughout the feature. After every spin, the Wild Jar Symbols randomly move to an adjacent vacant position, before the next collapse takes place.

## GIGA JAR

During the Base Game, as the Giga Jar reaches MAX level, there will be a chance to trigger the all new and exciting Giga Jar feature!

When this happens, all existing symbols on the reels will disappear, and the Giga Jar will randomly add 3 or 4 Wild Jar Symbols that will increase in multipliers instead.

The mighty Giga Jar then lands on the reels as a 2x2, or a paying 3x3 or 4x4 Instant Prize Block, and 8 Giga Spins then starts. All Instant Prizes that land, will stay on the reels throughout the feature.

When a Wild Jar Symbol Multiplier lands next to a playing cluster, the Multiplier will be added to the cluster win. After every spin, the Wild Jar Symbols randomly move to an adjacent vacant position, before the next spin takes place.

Instant Prize symbols may also land with 1 or 2 additional spins.
